

# Assignment #4: Turn-in Guide

Student: Jaizon Fernando Lubaton  
DGMD E-27

Include a Canvas comment or text file in your submission, indicating the following:

## •Flexbox assignment

- Link to the Flexbox web page that you built: <http://www.travelwave.us/proj4flex>

### •Remember to:

- Comment your CSS so it's clear where the Flexbox portion of the assignment is located.

#### Answer:

**File:** scss-**flex**/partials/\_07-flex-layout.scss starts here (<http://bit.ly/2pogGoQ>)

- Comment the grid reordering.

#### Answer:

**File:** scss-**flex**/partials/\_22-screen-tablet.scss line# 84 (<http://bit.ly/2pAZk8H>)

**File:** scss-**flex**/partials/\_23-screen-mobile.scss line# 62 (<http://bit.ly/2pyxHeu>)

- Include the screenshot of the completion screen of the game you chose.

#### Answer:

Played and completed two games.

<http://www.travelwave.us/proj4flexgames>

## •CSS Grids assignment

- URL for your page(s): <http://www.travelwave.us/proj4grid>

### •Remember to:

- Comment your layout reordering.

#### Answer:

Grid reordering video: <https://youtu.be/Zrlf6nOweeo>

a. Reordering of Grid items was implemented by retargeting items in the grid on different screen sizes.

b. For reordering of Flex items in Grid layout, please see:

**File:** scss-**grid**/partials/\_22-screen-tablet.scss line# 62 (<http://bit.ly/2oQJg3C>)

- Comment where Flexbox is occurring inside of your Grid layout.

#### Answer:

a. **File:** scss-**grid**/partials/\_07-grid-layout.scss line# 74 (<http://bit.ly/2pBurkC>)

b. Screenshot of flex box in grid layout: <http://bit.ly/2p1Ee0k>

## •CSS transforms, transitions, filters

•URL for your page(s) where these effects occur: <http://travelwave.us/proj4part3>

### •Remember to:

- Comment the CSS where the code is found for these effects.
- If I need to do something to trigger the effects, tell me what to do (i.e. hover over the blue button)

### Answer:

**File:** scss-**flex**/styles-part3.scss    all lines of code <http://bit.ly/2pBuigO>  
*To trigger transition and transform effects on items, please do hover.*

## •SVG and animation

•URL for your page(s) where these effects occur: <http://travelwave.us/proj4part4>

### •Remember to:

- Comment the CSS where the code is found for these effects.
- If I need to do something to trigger the effects, tell me what to do (i.e. hover over the blue button)
- 

### Answer:

**File:** scss-**flex**/styles-part4.scss    all lines of code <http://bit.ly/2oRc4sH>  
*Animations are triggered during page load.*

## •Instructors Choice

### •Mondrian Painting:

Page: <http://www.travelwave.us/proj4mondrian>

CSS: <http://www.travelwave.us/asset/css/styles-mondrian.css>

### • Played and completed the two games:

<http://www.travelwave.us/proj4flexgames>
